

Program Entry Requirements

1. successful completion of home country Medical School
2. speciality board certification in
 - Nuclear Medicine, or
 - Physicians in training in NM (2 years of NM: cert. by program chair)
 - Physicians in training in Radiology (CT experience: certified by program chair)
 - physicians board certified in other fields permitted to perform NM examinations in home country (e. g. internists) and having extensive experience in this field*.
3. Good command of English (all courses and discussions are in English)

**Note: For the latter category, stringent conditions apply. It is not possible that physicians without substantial knowledge in Medical Imaging gain PET/CT competence by these courses.*
