Event**

Symposium

1000th Liver Transplant in Zurich 50 Years of Cyclosporine

What has happened since then?

With the participation of Prof. Jean-François Borel
and Prof. Henri Bismuth

Date: Thursday, April 28, 2022, 1:30 to 6:00 PM

Venue: Large Auditorium EAST, University Hospital Zurich

Invitation

Dear Colleagues and Friends,
Dear Madam, Dear Sir,

We would like to cordially invite you to the symposium **"1000th Liver Transplant in Zurich and 50 Years of Cyclosporine"**.

While the history of organ transplantation extends more than 100 years ago, successful human organ replacement has been only feasible since the discovery of cyclosporine. We are, therefore, very proud to celebrate with a symposium this important 50th anniversary of cyclosporine at the same time as the 1000th liver transplantation in Zurich.

In addition, we are honored to welcome Prof. Jean-François Borel, who discovered cyclosporine in 1972, as well as Prof. Henri Bismuth as a European pioneer in the field of liver transplantation.

As a special highlight, we are delighted to present the world's first transplantation of a human liver discarded by all transplant centers, which could be preserved for several days outside of the body with a normothermic perfusion machine.

Our aim is to present with this special symposium an overview from the beginning of liver transplantation to nowadays. Furthermore, we would like to take the opportunity to thank the referrers and sponsors for the good collaboration, and spend this afternoon with living donors, transplant recipients and all colleagues involved.

We look forward to welcoming you at the symposium.

With kindest regards,

Prof. Pierre-Alain Clavien
Prof. Philipp Dutkowski
Prof. Beat Müllhaupt
on behalf of the entire transplant team

Program

1:30 PM Welcome

Prof. Frank Rühli, Dean, Medical Faculty, University of Zurich

Moderation:

Prof. Andreas Kremer and Prof. Philipp Dutkowski, Zurich

50 Years Cyclosporine: The Beginning of Liver Transplantation

Prof. Henri Bismuth, Paris (France)

1000 Liver Transplantations in Zurich (incl. HOPE)

Prof. Philipp Dutkowski, Zurich

Wyss Liver Project: The Future?

Prof. Pierre-Alain Clavien, Zurich

3:15 PM Coffee Break – Visit to the Industrial Exhibition

Moderation:

Prof. Beat Müllhaupt and Prof. Pierre-Alain Clavien, Zurich

Primary Sclerosing Cholangitis and Cholangiocarcinoma

Prof. Andreas Kremer, Zurich

Perihilar Cholangiocarcinoma: Transplantation or Resection?

Dr. Eva Breuer and Prof. Pierre-Alain Clavien, Zurich

Liver Transplantation for HCC: Any Changes in 2022?

Prof. Markus Heim, Basle

Liver Metastasis: Transplantation or Resection?

Prof. Kuno Lehmann, Zurich

The NASH Epidemic: Should we be afraid?

PD Dr. Dr. David Semela, St. Gallen

Immunosuppression: What have we learned since Cyclosporine?

Prof. Beat Müllhaupt, Zurich

6:00 PM Apéro Riche

Speakers

Special Guests

Prof. Dr. Jean-François Borel
Basle

Prof. Dr. Henri Bismuth
Hôpital Paul Brousse
Villejuif, France

Faculty

Prof. Dr. Pierre-Alain Clavien
